EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Amend claim 1 as follows:

In the fourth indentation (starting with "a running cross-correlator") after the limitation "comparing the output of said first and second", delete --transfer functions-- and replace with "filters".

Therefore the amended indentation of the claim will read:

a running cross-correlator interconnected to said first and second filters for comparing the output of said first and second ~~transfer functions~~ filters as said signal is filtered by both said first and second filters over time.

Authorization for this examiner's amendment was given in a telephone interview with George McGuire on February 13, 2006.

Allowable Subject Matter

2. Claims 1-7 are allowed.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

In regard to claims 1 and 4, the prior art does not disclose or render obvious wherein the phases of said first and second static transfer functions (of the filters) differ by 180 degrees about said target frequency and a running cross-correlator interconnected to said first and second filters for comparing the output of said first and second filters as said signal is filtered by both first and second filters over time in the combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
